3) New Business: Outreach to residents

- R. Konisky. Organizations such as the N.H.E.P. will help to produce educational pamphlets to send to residents. Presented an example of one sent to people in Sandown, NH. Cost would be about \$800- about \$300 may be available from an Estuaries Project grant. Could include map defining conservation land and wetlands.
- A. Watts suggested a quarterly newsletter (such as produced by the library) with a smaller, focused message.
- R. Konisky asked if there were other organizations that could help. A. Watts replied that this is an eventual goal of the Watershed Alliance.
- P. Allen feels that we first need to define the problem for people- i.e. the threat to the quality of Great Bay and what that means. Perhaps start at the elementary school- talk to the children and send home information to parents.
- R. Konisky would like to get some people (T. Walker) to come speak to us at the next meeting.
